COMPACT COOLERS

Model CCE564 shown

- Powerful air mover
- Compact and slim design
- Easy manoeuvrability
- Tilt adjustable airflow for 'Versatile' models CCE404 and CCE564
- Efficient low-noise impeller
- Robust, sturdy construction
- Safety a key feature
- Light commercial to heavy industrial use

Another Quality Fantech Product

COMPACT COOLERS

The new generation portable Compact Coolers deliver high air performance with trouble-free operation and proven Fantech reliability.

Robust and sturdy - these units have been designed to assist with the movement of air across products and working areas in a wide variety of conditions.

The Compact Coolers are fitted with a handle and wheels for easy manoeuvrability and their slim design means they can be used and stored where space is limited.

The 'Versatile' models CCE404 & CCE564 provide tilt-adjustment, allowing air to be directed up or down to meet height specific requirements, while the 'Standard' model CCS564 has fixed horizontal airflow direction.

All models use an efficient aerofoil impeller and provide powerful airflow performance at relatively low noise levels.

Key safety features include:

- Finger guards that comply with AS4024.1
- Weatherproof switch and heavy-duty power lead
- In built thermal motor protection with auto reset

The Fantech Compact Coolers are covered by a 12-month warranty and are supported by our extensive network of offices throughout Australia and New Zealand.

Product Data			
Version	Versatile		Standard
Model No.	CCE404	CCE564	CCS564
Fan Tilt Adjustment	Yes	Yes	No
Fan Dia. (mm)	400	560	560
Air Flow (m ³ /s)	1.44	3.42	3.42
Noise Level (dBA @ 3m)	47	58	58
Electrical Supply	240V/50Hz	240V/50Hz	240V/50Hz
Power (kW)	0.25	0.75	0.75
Current (Amps)	1.80	4.90	4.90
Speed (rpm)	1300	1350	1350
Protection Rating	IP55	IP55	IP55
Dimensions (w x h x d)	615 x 745 x 440	818 x 845 x 540	822 x 683 x 348
Weight (kg)	21	40	26

'Versatile' version features tilt adjustment of fan

'Standard' version provides fixed airflow direction
